

Customer Support Record: Payment Failure and Double Charge

Customer Name: Rajesh Iyer

Order ID: ORD-671239

Product: Samsung Galaxy M14 5G Smartphone

Complaint: Payment Failure

Customer Message: Good morning, I tried purchasing the Samsung Galaxy M14 for ₹12,499 on 22/05/2024 from Chennai. During checkout, the payment gateway threw an error and showed order failed, but ₹12,499 was debited twice from my credit card. The app shows no active order under ORD-671239. Please refund the double charge.

Support Response: Hello Rajesh, thank you for bringing this to our attention. We have verified your transaction logs for 22/05/2024. The bank server timed out during payment authorization, resulting in duplicate debits without order confirmation. We have initiated an automatic reversal for both charges of ₹12,499.

Resolution: Both pending charges of ₹12,499 were successfully reversed to the customer credit card account on 23/05/2024 with bank reference number ARN-4092810.
