Customer Name: Ananya Kulkarni

Order ID: ORD-774102

Product: Samsung Galaxy Tab A9

Complaint: Payment Failures

Customer Message: Hi, I tried purchasing the tablet on 05/03/2025 for ₹14,999 using UPI. The payment app debited ₹14,999 twice from my bank account, but the order status showed failed initially, and then generated only one order ORD-774102. Please refund the extra ₹14,999 deducted.

Support Response: Hello Ananya, we understand your concern regarding the double deduction. Our finance team verified that the second transaction of ₹14,999 was received as an unlinked payment failure due to a server timeout from the bank end. We have initiated an automatic refund to your original payment method.

Resolution: Refund of ₹14,999 processed on 06/03/2026. Amount credited to customer account on 08/03/2023.

In summary, the ongoing discussion highlights both the complexities and potential solutions. Stakeholders must collaborate closely to ensure safety and long-term sustainability.
